QUALITY-BUILT™

BRAKE CALIPER

PINZA DE FRENO

ÉTRIER DE FREIN

Engineered and manufactured for durability and like-new performance, each MPA Brake Caliper is 100% pressure tested for worry-free installation and operation.

1. Brackets Included

Application specific brackets prevent caliper binding and take the guesswork out of caliper replacement.

2. Rust Prevention

All iron caliper bodies and brackets are zinc plated for superior corrosion protection in all conditions.

3. 100% Tested

Pressure testing checks every seal, bleeder, and line connection for leak-free operation.

4. All New Dust Boots and Seals

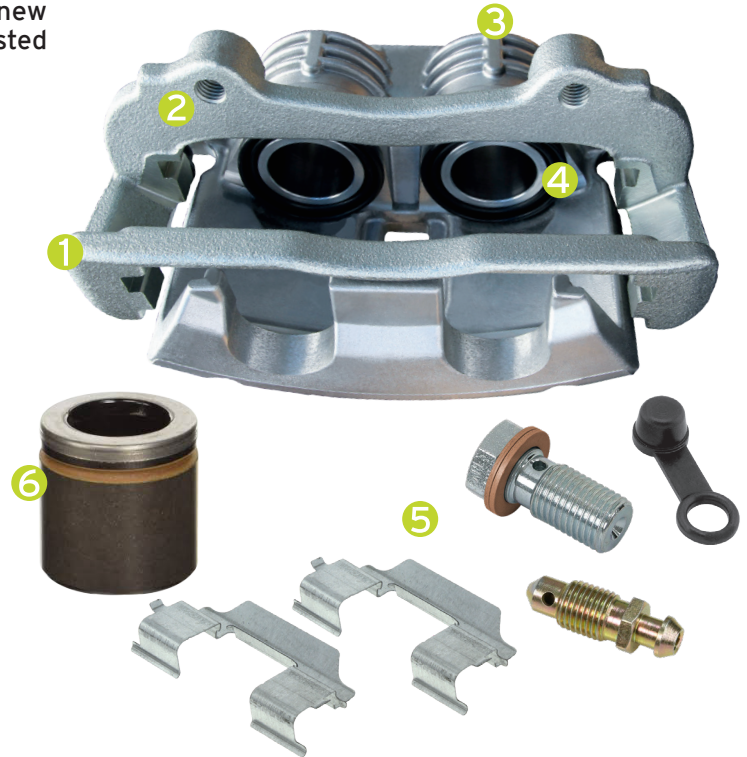

EPDM rubber components are more resistant to deterioration caused by extreme temperatures.

5. Hardware Included

Application specific pad abutment hardware, banjo bolts and bleeder screws included.

6. All New Phenolic Pistons

To ensure maximum durability and reliability all phenolic pistons are replaced.
